SIGNATURE

HYUNDAI

CERTIFIED DEALER

OUR COMMITMENT TO CUSTOMER SERVICE EXCELLENCE

TOTAL SATISFACTION

From award-winning products to industry-leading customer service, our most important goal is to exceed your expectation.

QUALITY

Quality is at the heart of our guiding principles. It's the only way your Hyundai can become a reliable part of your family.

INNOVATION

We are committed to standing-out from the competition by bringing the products, technology, and services that customers actually want.

CULTURE

With a focus on teamwork and staff empowerment, we are guided by integrity and passion to pursue excellence through continuous improvement.

The difference between ordinary and extraordinary is our commitment to excellence.

Automatic Transmission Only. Limited to \$625.
Ask your Advisor for details.

We are so confident that our fluid maintenance services will keep your vehicle healthy, that we guarantee it for Life!

Supreme Oil Service

This service is accompanied with an oil change. The engine is chemically cleaned using a gentle detergent. This removes harmful sludge and varnish deposits with old oil when drained. A chemical treatment is added to give extra protection to the engine.

Fuel System Service

This service completely cleans the entire gasoline fuel system by chemically cleaning valves, injectors, combustion chamber, fuel lines, and throttle plate. Restores the fuel system to 'like new' operation for Maximum Performance.

Brake Fluid Service

This service consists of flushing out all old contaminated brake fluid from the entire system, simultaneously replacing it with Wynn's HD Brake Fluid to ensure proper brake system operation.

Transmission Service

This service chemically cleans the entire transmission, changes ALL the old contaminated transmission fluid, and the new fluid is treated to give it maximum protection over the life of the fluid. Helps ensure proper shifting and function.

Cooling System Service

This service chemically cleans the entire cooling system, changes ALL the coolant, and the new coolant is treated to give it maximum protection over the life of the fluid. Ensures proper cooling system function.

AWD Service

This service consists of draining all the old fluid from the Differential & Transfer Case. It is then replaced with fresh Wynn's Synthetic Gear Oil & Wynn's Synthetic Transfer Case Oil with a protection package for better anti-friction and wear.

Cabin Air Filter Service

Replacing your cabin air filter during your visit will help trap any pollen, bacteria, dust, and exhaust gases from entering your vehicle. Additionally, we also treat your HVAC system with Wynn's Airco-Clean that helps kill any existing mold, bacteria and microorganisms. This leaves your vehicle with a fresh and clean (hypoallergenic) smell resulting in better air quality for you and your passengers.
